Date of Birth: 24 Dec 1999

Marital Status: Single

Languages: English, Hindi, Marathi

About

- Software Developer having around 3 years of total experience. Which includes analysis, requirements gathering, planning, coding, database design, unit testing, development and maintenance.
- Strong combination of technical and analytical skills to contribute towards the product development and meet client deliverable.
- Ambitious to kick start the career with globally recognized organization which will give me global exposure to enhance my skills and knowledge for mutual benefits of the organization.

PROFESSIONAL SUMMARY

- Experience in **Software Development Life Cycle SDLC** involving Requirement Gathering, Analysis, Design, Development, Testing, Implementation and Production Support.
- Good analytical and problem-solving skills.
- Good exposure to Angular, Angular JS and Dot Net technology.
- Solid foundation in different database technologies such as **MySQL**.
- Good exposure in **Agile and Scrum Methodology** of software development.
- Ability to suggest improvements to a User Story and communicate these to stakeholders.
- Good troubleshooting and debugging skills.
- Strong verbal and written communication skills, with the ability to work effectively across internal and external Clients.

TECHNICAL EXPERTISE

Technologies	Angular, Angular JS, C# .NET, Rest Web API
Computer Fundamentals	Data Structure & Algorithms, Operating System, DBMS
RDBMS	SQL Server 2019
Methodology	Agile, Scrum
Tools/IDE	VS Code, Visual Studio, JIRA, WebStorm
Version Control Tool	Git
Operating System	Windows, Linux

Education

- Diploma In computer Technology (2015-2018) from Government Polytechnic Ahmednagar.
- Bachelor of Engineering – Computer Engineering (2018-2021) from SPPU.

Achievements

- Awarded by the 'Extra Miller award' for exceptional performance for successfully delivering the project within short period of time.
- Recognized as a 'Rising star of Month award' for ownership, quick analysis, and coordination across teams for delivering priority items within timeline and outstanding performance.
- Received 'Most valuable Team Award' for outstanding work.

EXPERIENCE

Winjit Technology, Nashik, INDIA

Role - Software Developer

July 2021 - Till Date

- Working with product development team to ensure product support and continuous releases using Technologies, such as **Angular, Angular JS and C# .NET**
- Requirements gathering, analysis, design, code, test and implement smaller/medium projects trouble shoot any Enterprise Development production system.
- Maintain effective customer (Internal) relationships; as well as effective communication and coordination with various other technology groups.
- Responsible for independently handling resolution and communication related to tasks assigned.
- Responsible for adherence to standards, policies, and development guidelines.
- Implementation of requirements following the coding standards, and responsible for code reviews.
- Responsible for Creation of Continuous Integration tests and fixing the recent failures.
- Worked on multiple regression items to ensure patch deliveries within timelines.

PROJECTS

iTWO SaaS Configuration

Role: Software Developer

Period: August 2021 -December 2022

Environment: Angular 13, Dot Net Framework

Responsibilities: Developed and maintained web applications using Angular 13, leveraging its features to create dynamic and responsive user interfaces. Utilized TypeScript to write clean, maintainable code, and managed dependencies with NPM while automating tasks with Grunts and GulpJS. Implemented design patterns such as MVC or MVVM to ensure scalable and maintainable codebase. Interacted directly with clients to understand project requirements, gather feedback, and ensure alignment with their expectations.

RIB iTWO (4.0)

Role: Software Developer

Period: December 2021 -August 2022

Environment: Angular JS, Angular 13, Jest Testing

Responsibilities: Applied solid understanding and experience with Object-Oriented design and development principles to architect scalable and maintainable frontend solutions. Leveraged extensive prior experience with Angular 8+ to implement robust, efficient, and modular applications following Angular's best practices and recommended patterns. Created self-contained, reusable, and testable modules and components within Angular, building upon core AngularJS elements and modules. Get involved in the project discovery phase by brainstorming solutions, writing documentation, and designing database structures. Write clean, logical code according to project requirements and documentation

RBL Website (Bank Application)

Role: Software Developer

Period: August 2022 – Till date

Environment: Angular JS, Dot Net Framework, MySQL

Responsibilities: Developed user interfaces for web applications using HTML, CSS, and AngularJS. Write clean, logical code according to project requirements and documentation. Interacted directly with clients to gather requirements, clarify project scope, and provide regular updates on project progress, demonstrating strong interpersonal skills and client-centric approach. Successfully managed and executed entire projects independently, showcasing autonomy, initiative, and the ability to handle complex tasks with minimal supervision.

Winverse Timesheet Application

Role: Software Developer

Period: March 2023 – Till date

Environment: Angular 13, Dot Net Framework, Jest Testing, Azure AD integration

Responsibilities: Get involved in the project discovery phase by brainstorming solutions, writing documentation, and designing database structures. Write clean, logical code according to project requirements and documentation. Developed user interfaces for web applications using HTML, CSS, and Angular latest. Ensured responsive design and cross-browser compatibility for seamless functionality across devices. Collaborated closely with design and back-end development teams to create visually appealing and functional interfaces.

DECLARATION

I do hereby declare that the details furnished above are true and correct to the best of my knowledge and belief.
